

Quality Assurance

I. In-Office Diagnostic Capabilities:

- A. X-ray Equipment
- B. Blood Pressure/Heart Rate/Respiratory
- C. Temperature
- D. Weight
- E. Height
- F. Goniometer/Inclinometer
- G. Sensation Study
- H. Manual Muscle Testing

II. Consulting Diagnostic Services:

- A. CT Scans
- B. MR Scans
- C. Diagnostic Ultrasounds
- D. Dopplers
- E. Bone Scans

III. Consulting Lab and Physiological Testing:

- A. EDX (NCV, H Reflex, F Wave, Needle EMG)
- B. Repetitive Nerve Stim
- C. Somatosensory Evoked Potentials (SSEP)
- D. Surface EMG
- E. Mechanical Muscle Testing

IV. Manipulation Treatments:

- A. Low Force Technique
- B. Manual Spinal Manipulation Therapy

V. In-Office Physiotherapy:

- A. Electrical Stim
- B. Ultrasound
- C. Hydrocollator Therapy
- D. Cryotherapy
- E. Braces

VI. In-Network Physiotherapy:

- A. Traction (Cervical, Lumbar, or Extremity)
- B. Rehabilitation
- C. Orthotics

VII. Counseling:

- A. Nutritional
- B. Exercise
- C. Case Management
